Metal Detection made in Germany

QUICKTRON 05 RH HyQ Clean

Metal Detection made in Germany means:

- Ease of integration in the production line - compact build, moveable reject mechanism, integrated or separate electronics.
- Easy and fast operation with touch screen and self explanatory menu structure
- Reliable metal detection and operation thanks to the power line detection coil with interference shield.
- Any operational fault is reliably displayed. The signal evaluation, flap function and air supply are permanently monitored.
- All components are in Stainless steel or foodgrade plastic.
- Timesaving and complete cleaning with the quick-out reject and easy clean reject flap.
