

FLEXACT AND COMPACTIBLE

Version 12/10

METAL SEPARATOR QUICKTRON 05 A

FOR THE EXAMINATION OF BULK MATERIALS SUCH AS WOOD CHIPS,
WOOD SHAVINGS AND SAWDUST IN FREE FALL

- Detects and separates **all metals** in solid products or as loose parts
- Optimum protection of the equipment due to high sensitivity
- Compact, easily integrated
- Durable and solid - a profitable investment
- ATEX conforming versions available

MESUTRONIC
Metal Detection made in Germany

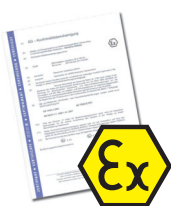

QUICKTRON 05 A

Metal Detection made in Germany means:

- Efficient and cost-saving commissioning thanks to a 4-row back-lit LCD Display with easy to understand menu text and simple 4 pad operation.
- Reliable protection. Only authorized operators that know the 4 digit code can access the 3 operating levels of the metal detector. Chosen functions can be rendered freely accessible for any user by the administrator.
- The continuously operating self-monitoring system offers the highest degree of safety. It records fifty-eight (58) different device capabilities and reports any system failure reliably. Meaningful text messages are helpful and save valuable time.
- Always informed. Up to 125 devices can be centrally managed and controlled through a bus line (CAN-bus or Ethernet). We are always there when you need us with **mesuREMOTE**, the remote control module from MESUTRONIC.
- For all applications and every amount of material the appropriate metal separator. Several aperture sizes are available, for example round (Stand version 50-300mm) square or rectangular. If the installation site is not accessible, opt for the version with a separate electronics cabinet.
- Minimal loss of good material due to the rapid reacting reject system.
- Durable and powerful, air operated, maintenance-free reject technology. Tested for more than 100,000 movements.

Detailed information can be found in our technical data sheet.

Proven safety

MESUTRONIC metal separators series QUICKTRON 05A are available in ATEX version for hazardous environments. Proven and tested by an accredited independent certification company. Safety without compromise.

Successful partnership

Benefit from our years of experience in the lumber industry. MESUTRONIC offers field tested, proven technology and develops customized solutions with their clients.
