METAL SEPARATOR FOR THE INTEGRATION IN VACUUM  
FILLERS TO EXAMINE LIQUIDE / PASTY FOOD

- Detects and separates **any type of metal**, encapsulated or free
- Fits all commercial vacuum fillers
- Fast and easy to clean in a few steps without tools
- Pressure washer safe

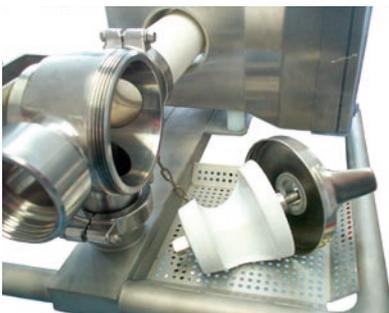

**MESUTRONIC**

*Metal Detection made in Germany*

# MEATLINE O

## Metal Detection made in Germany means:

- Stable frame with lockable casters and a stable tubing frame for agility and protection of the equipment
- Easy and fast operation – touch screen display with self-explanatory menu structure
- compact construction
- Easy to take apart for cleaning
- Fast reacting, strong, reliable and maintenance-free pneumatic drive

### Practical in use:

The reject mechanism can be taken apart in a few easy steps without the need for tools. All components are linked together with a chain so they cannot get lost. After cleaning, everything is easily fit together again. All components are made from stainless steel and are pressure cleaner proof.
